Chasing Nature at the Beach

While any day (or week) at the shore puts you in personal touch with the creatures that call it home, some resorts go above and beyond in their wilderness programs and embrace of eco-minded luxuries. Consider spreading your wings to these four standout stays on the water.

BELIZE

The world-class coral reef (including the Great Blue Hole) is an easy ride away with the top-flight guides at **Turneffe Island Resort**, a luxury private-island getaway with Old Caribbean charms; turnefferesort.com.

BRITISH COLUMBIA

The dramatic landscapes surrounding **Clayoquot Wilderness Lodge** are only outdone by Zodiac-boosted adventures into the world of black bears, sea lions, sea otters, and eagles; clayoquotwildernesslodge.com.

DOMINICA

Where the self-proclaimed Nature Island's rain forest meets the beach, **Secret Bay's** cluster of villas is a rustic-luxe base for excursions. The Bucket List Adventure includes a birding hike and lionfish catch-and-cook; secretbay.dm.

MEXICO

Sublime escape meets education and volunteerism (including helping sea turtle hatchlings) at **Playa Viva**, a thatched-roof paradise on the west coast; playaviva.com.

Clockwise: Lush greenery along a path to a cottage; Island essentials; a blue crab before its return to the water; kayaking on Mosquito Creek
